"This shows the greatness of the vintage with graphite, stone, oyster shell, blackberry, and licorice. Smoke undertone. Full body yet linear and energetic with a fabulous finish. A stunning wine. Great value for the quality. Drink now. Screw cap."

"Australia is no longer emerging. Australia is no longer a "one to watch." Australia is here, and it stands tall among the world's greatest wine nations. After all, it's home to the oldest dirt on the planet, as well as a vast reserve of the world's oldest vines."
