

CHAMBERS & CHAMBERS PARTNERS WITH PM SPIRITS

February 8, 2023

We are delighted to announce our new partnership with PM Spirits! With the addition of Calvados, Cognac, Armagnac, Mezcal & Tequila, we are proud to provide an unparalleled portfolio of family-owned, authentic spirit producers from France, Mexico, and beyond.

"As a portfolio deeply committed to family-owned, best of class producers, PM Spirits was the obvious choice when we sought out a new partner for quality, artisanal spirits in California. We're very excited to welcome Nicolas, his brilliant team and category-leading producers to our portfolio, kicking-off a brand-new era at Chambers & Chambers." - Felipe Silva | Portfolio Manager, Chambers & Chambers

"As an importer, the game is twofold: find great products and find great wholesaler partners to sell said products. Both are equally complicated to come by and one cannot succeed without both. PM feels very fortunate to have crossed paths with the Chambers & Chambers team – motivated and passionate professionals who share our understanding of the small artisan making great products without cutting corners. It is a unique opportunity and a privilege to align ourselves with Chambers & Chambers in California." - Nicolas Palazzi | Owner, PM Spirits

Chambers & Chambers will start representing the following producers:

Roger Groult – Calvados, France
Frapin – Cognac, France
Domaine d'Esperance - Bas-Armagnac, France
Château Arton - Haut-Armagnac, France
Cinco Sentidos – Destilado de Agave, Mexico
NETA – Destilado de Agave, Mexico
PM Projects – Tequila, Mexico
Cobafire – Eau de Vie de Raisin, France
Additional producers will be added in the future!

About PM Spirits

PM Spirits is an uber small operation importing and distributing geeky spirits to the US market. Currently, we function as two separate, but overlapping, operations: a portfolio of imports we distribute exclusively in New York state, and a nationally distributed portfolio currently available in 24 states. We began with a focus on our first love; cognac. We now work with a range of profound, small-production distillates made by artisan distillers from around the world. Most importantly, we only work with spirits that we would drink ourselves.
